Also, sadly not all music notes are playable. * Not all our sheet music are transposable. ** Single print order can either print or save as PDF. This means if the composers started the song in original key of the score is C, 1 Semitone means transposition into C#. Most of our scores are transposable, but not all of them so we strongly advise that you check this prior to making your online purchase. In order to transpose click the "notes" icon at the bottom of the viewer. After you complete your order, you will receive an order confirmation e-mail where a download link will be presented for you to obtain the notes. Simply click the icon and if further key options appear then apparently this sheet music is transposable.
