Submit Close Command Of War is a top down war game set in the first world war or great war (can wars be great?), this is just the beta demo but it's awesome, we didn't go in to this expecting it to be as good as it was, but it was awesome, the graphics are simple but do the job that is needed of them some of the elements of the game can seem a bit complex at first however it's all explained really well and it's incredibly hard to stop playing once you have started! It's probably best described as a tactical war simulator although you play almost an overseer, as you go along you will accrue money which can be spent on basic troops, more advanced troops, generals, gunners, snipers, air or tank attacks, of course the more powerful attacker you want to send out the more gold you will have to spend so do you risk depleting your standard troops and taking the hits whilst you wait for the money to build up and then send a tank attack out to destroy everyone or do you fill the ground with troops to protect yourself and make sure the enemy doesn't cross your lines (because if they do it's game over)? And it's little decisions like this that make the game so interesting and addictive and it's also pretty challenging however if you do find the normal campaign mode too easy you can also do a challenge mode where you are under constant barrage and can't advance out of your trench and just have to survive for ten minutes but it's very, very difficult but also a nice touch to include in the Command Of War beta demo as it means you get two different game modes both of them very challenging but one that should keep you occupied for quite some time. The musical score also fits perfectly with the game reminding you that as much fun as it is war is a very dark subject, but then the animations of the fallen soldiers are hard not to laugh at but it all just adds to the charm of one of the best strategy games around at the moment. You can download the Command Of War beta demo here for free and you really should! Award Received: 2016-11-24 09:16:10 Safe free download - Tested Virus and Malware Free A brief guide to installing Command of WarTo install the fantastic Command of War the first thing you will need to do is go to the review page which can be found here [at the top left hand side of the page](#) ... Having trouble playing Command of War? Take a look at this guide here! Command of War, despite its simplistic looks, is actually one of the more difficult strategy games I've played in a while. After a few runs, however, I think I have a solid grasp on how to find some amount of ... There are certain games we here at Rocky Bytes just never get tired of, if you're sick of the same old games and have no money to invest in the latest AAA game then here's a list of a few games that will provide with as much entertainment as most games that money can buy. First up we have my personal ... Command of War demo is a game worth revisiting just because it's so great and this is only the demo version! With the full version planned to be released this summer you really need to try out this demo before it's no longer available. Strategy games aren't for everyone but the bright ... Happy Thanksgiving everyone, so with your bellies full of Turkey, and to recover from your hangover why not lie back and relax with some of our best free downloads, to celebrate over throwing the British what better way than to spend a few hours with the Command of War Beta Demo which is a really nicely ... At the time of downloading Command Of War you accept the terms of use and privacy policy stated by Parsec Media S.L. The download will be handled by a 3rd party download manager that provides an easier and safer download and installation of Command Of War. Additionally, the download manager offers the optional installation of several safe and trusted 3rd party applications and browser plugins which you may

think to install or not during the download process. Download Command Of War for free: Name: Command Of War Genre: Strategy Platform: PC Release Date: TBA (2017) Command Of War is an intense, authentic and brutal World War I trench warfare strategy game which has been in development for over a year. Experience the brutality and stalemate of Trench warfare on both the western and eastern fronts during the Great War. Command Of War is due for PC in 2017. Bookmark or watch this thread to keep up to date with its development. WHY NOT DOWNLOAD AND TRY THE DEMO NOW! DOWNLOAD & PLAY COMMAND OF WAR DEMO NOW! All feedback is welcome and encouraged! Last edited by a moderator: Sep 27, 2016 Are there be horses and tanks? I'm downloading it and I'll give you my impressions once I've played it a bit, but from the video, I can definitely say "brilliant sound effects, nice work!" Are there be horses and tanks? No horses as of yet. But the game will include tanks as you can see from the video and the Gif. There will be a light tank and a heavy tank in the game. Both are support weapons. I'm downloading it and I'll give you my impressions once I've played it a bit, but from the video, I can definitely say "brilliant sound effects, nice work!" Thank you very much. I can't wait to read your impressions on the game. COMMAND OF WAR Introducing the latest unit: THE FLAMETHROWER WW1 saw the introduction of a brand new type of warfare. A never before seen pyrotechnic display of force. The long burst of flame from the flamethrower was both a dreadful and awe-inspiring sight at the exact same time. The flamethrower is still being worked on at the moment, you'll be able to get your hands on this unit in the next update. Fliedropper links are temporary, use tinyupload (The link is broken). Thank you for bringing this to my attention. The download links have been updated now. I will likely use tinyupload in the future. If you wouldn't mind, I'd love to get your thoughts on the demo. OMG, This game looks VERY interesting. The sounds, the visuals, the gameplay... Everything looks amazing! GL with this project. Nice looking game! The art style is quite unique. In terms of game mechanics, it actually looks almost identical to Warfare 1917, the Flash game. Not a bad thing though, since that was a great game. I do like that you can control individual snipers, unlike Warfare 1917. I also get the feeling that this is a mobile game. The number of popups is a bit worrying, it breaks the flow and immersion of the game. That's the only real criticism I have, keep up the good work! Last edited: Aug 26, 2016 Congrats! Baron, a Youtuber with 350k subs, featured your game on his channel! That's like any indie dev's wet dream haha. It is a good game, although the timed pop-ups sometimes disturb playing (manual sniper or machine gun). Waiting for the full release Following I Loved these type of games back in middleschool Looks really fun so far OMG, This game looks VERY interesting. The sounds, the visuals, the gameplay... Everything looks amazing! GL with this project. Thank you very much. I'm glad you like it so far. Nice looking game! The art style is quite unique. In terms of game mechanics, it actually looks almost identical to Warfare 1917, the Flash game. Not a bad thing though, since that was a great game. I do like that you can control individual snipers, unlike Warfare 1917. I also get the feeling that this is a mobile game. The number of popups is a bit worrying, it breaks the flow and immersion of the game. That's the only real criticism I have, keep up the good work! Thanks for your feedback! The pop-ups do ruin the flow, but they only show up the first time you play the game and never again. It is used to explain things to the player only when the player initiates those features themselves. Congrats! Baron, a Youtuber with 350k subs, featured your game on his channel! That's like any indie dev's wet dream haha. Hahaha Yes Baron really loves Command Of War. Which is great for me as that provides much needed publicity for indie games. It's a cool working relationship I have now established with Baron over Twitter. His channel subscribers also LOVE!! the game so much and want to see more, which is a win/win for Baron and myself. His subs want more videos, so he gets more views, while I need the publicity NEW DEMO AVAILABLE -Added flamethrowers -Improved the presentation (menus, messages etc) -Added trench defense challenge mode (think Horde mode) -Added chemical warfare (poison gas) -Numerous bug/glitch fixes GAMEPLAY VIDEO BY BARONVONGAMEZ Enjoy Download link Really good game, although it would be great if it had a difficulty setting, and maybe more content like maps and so on. Great job so far! NEW UPDATE New unit: The trench Shotgun unit has been added, great at close quarters combat and assaulting enemy trenches Battlefield support: Add Mortars and trench phone to your first line support trench. Exploding flamethrowers! Control the tank turret Play as Germany in Defense mode Download and play NOW: Download BETA demo v3.0 Gameplay of latest version (BaronVonGames) Mortar and Tank control gameplay: Who knows when is the next update? and please don't tell me that dev's dropped the game. This game is good.I know one way you could get more players.You could put the game on steam and get more players.Really, most PC gamers only trust steam because of viruses.Anyways good luck in development and I'll be ready for the full game.Goodluck! Look, I really really want to play this game, but I'm not buying that headache that is seven zip, edit: if I click the link above it says that theres nothing there Look, I really really want to play this game, but I'm not buying that headache that is seven zip, edit: if I click the link above it says that theres nothing there Last time I checked, 7Zip was free. And if you check further up the last post from the dev, there is another link to a Google Drive location. The Demo still appears to be there. Think the game has been abandoned, though, looks realy good, i might check it out I enjoy he game and it so AWESOME, I hope this game will have more updates in the future, I can't wait to see what's next Any plans on a steam or gamejolt release for this? Would definitely pay for this Definitely enjoyed this one It's really catchy and you always want to do better and advance further! Also, it really captures the feeling of the trench war, slow paced but deadly and everything can change quickly. Some minor complains: - Music gets really repetitive really fast and the sad tone doesn't feel right. I mean it's a tactical war game, so I would expect something different (more "epic" but that leaves room to think) - Sometimes control aren't intuitive enough, I would prefer a more RTS feel to it and make more use of the keyboard (right now it almost feel like mobile-game control) Like my tank always gets blown up because it's kinda hard to control it AND do something more "complex" with your soldier That being said, I'll be looking forward to the full release, it's already awesome PS: Wow "to be due 2017" D: Damn, I so hope it's not dead... I think Command of war has either been cancelled or was a quick cash grab scam Edit I did some digging and found sad news they only got 671\$ of the 8000\$ needed by the end of 2016 so this is cancelled Definitely enjoyed this one It's really catchy and you always want to do better and advance further! Also, it really captures the feeling of the trench war, slow paced but deadly and everything can change quickly. Some minor complains: - Music gets really repetitive really fast and the sad tone doesn't feel right. Probably because the creator took it down. Before you ask, no, that's not going to get fixed, because they've been inactive for so long that their account was automatically deleted. So don't hold your breath. how do i actually play the game? When i click the download link it says that i have to request edit access how do i actually play the game? When i click the download link it says that i have to request edit access Apparently it won't be possible to gain access to the game, as the developer's own account has been deleted due to inactivity... Maybe the game isn't even under development anymore (unfortunately)...
